

Monthly Digest of Statistics

No 371 November 1976 HMSO £1.45 net

A publication of the Government Statistical Service

Government Statistical Service

A service of statistical information and advice is provided to the Government by specialist staffs employed in the statistics divisions of individual Departments. Statistics are made generally available through their publications and further information and advice on them can be obtained from the Departments concerned.

The source for further information about series published in this volume is shown at the foot of each table. Current telephone numbers of these sources as well as general information about the *Monthly Digest of Statistics* can be obtained from the Central Statistical Office, Great George Street, London SW1P 3AQ. Telephone 01-233 6193.

Enquiries about orders and subscriptions should be made to the publisher, Her Majesty's Stationery Office, PO Box 569, London SE1 9NH. Telephone 01-928 6977.

Monthly Digest of Statistics

No 371 November 1976

First published 1976

INTRODUCTION

This *Digest* has been prepared by the Central Statistical Office in collaboration with the Statistics Divisions of Government Departments.

The name of the department or organisation providing the statistics is shown under each table. Some of the statistics provided by departments are actually collected by other organisations such as nationalised boards and trade associations. The assistance provided by these organisations, too numerous to mention individually, is gratefully acknowledged. The figures in the *Digest* are mainly totals for calendar months or monthly averages.

Some of the figures included in this *Digest* are pro-

Definitions

visional and may be revised in later issues.

A Supplement of Definitions and Explanatory Notes, published with the January issue, gives detailed definitions of all the terms and units used in the Digest. The following general definitions should be noted in using the Digest:

Area covered. Except where otherwise stated, all statistics relate to the United Kingdom of Great Britain and Northern Ireland.

Consumption and stocks. The terms 'consumption', 'disposals' and 'stocks' are defined in detail in the Supplement to the Digest. Figures of consumption and stocks are seasonal and should be used with caution. The stocks figures given may often relate to only part of the total stocks in the country.

External trade. Owing to differences in coverage and timing, figures of imports and exports are not always comparable with those for production, consumption and stocks.

Symbols and conventions used

Symbols. The following symbols are used throughout:

- .. not available
- nil or less than half the final digit shown
- * average (or total) of five weeks

Change of basis. A line drawn across a column between two consecutive figures indicates that the figures above and below the line have been compiled on different bases and are not strictly comparable. In each case a footnote explains the difference.

Rounding of figures. In tables where figures have been rounded to the nearest final digit, there may be an apparent slight discrepancy between the sum of the constituent items and the total as shown.

Supplementary tables

Supplementary tables published recently in the Digest are listed below, together with the date of issue in which they appeared:

Change in content

Table 18. Local authority manpower. This table is included for the first time. The former Table 18, Number of workers employed in agriculture will be reintroduced in the January 1977 issue.

Central Statistical Office, Great George Street, London, SW1P 3AQ.

CONTENTS

	National income and avacanditure	Table	Page
1.	National income and expenditure		
	Expenditure on the gross domestic product.	1	4
	Factor incomes in the gross national product.	3	5
	Index numbers of output at constant factor cost Personal income, expenditure and saving	4	7
	Consumers' expenditure	5	8
	Value of physical increase in stocks and work in progress	6	9
	Gross domestic fixed capital formation	7	10
	Fixed capital expenditure in manufacturing industry	8	12
	Fixed capital expenditure in the distributive and service industries	9	13
11.	Population and vital statistics		
	De facto or home population	10	14
	Age distribution of the population	11	14
	Births and marriages and deaths registered	12-13	15
111.	Labour		
	Distribution of working population	14	16
	Employees in employment: all industries	15	17
	Employees in employment: production industries.	16 17	18
	Civil Service : analysis by ministerial responsibilities	18	-
	Constructional work: operatives employed by contractors	19	-
	Overtime and short-time worked by operatives in manufacturing industries	20	23
	Unemployed	21-26	24
	Employment vacancies remaining unfilled	27	
	Industrial stoppages	28	29
IV.	Social services		
	National insurance and family allowances	29	30
	Family income supplement and attendance allowance	30	
	Supplementary benefits: pensions and allowances	31	
	National health service	32	32
V.	Agriculture and food		
	Agricultural land: area and harvest	33	33
	Livestock, pigs and poultry on agricultural holdings	34-35	-
	Production, disposals and stocks of principal foods and feedingstuffs	36-44	
	Tobacco	45	
	Alcoholic drinks Estimated household food expenditure and consumption in Great Britain	47-41	
	Nutritional value of household food	45	
VI.	Production, output and costs		
	Index of industrial production	50	49
	Output per head	51	
	Indices of home costs and labour costs	52	
	Wages and salaries per unit of output in manufacturing industries	51	55
VII.	Energy		
	Inland energy consumption: primary fuel input	54-5	5 56
	Inland energy consumption : heat supplied	50	
	Coal supply, consumption and stocks	57-5	-
	Colliery manpower and productivity	61-6	
	Gas. sources or suppry, some out and sales Electricity	63-6	
	Petroleum and petroleum products	66-7	
VIII.	Chemicals		
	Fortilizers	7	2 67
	Sulphur and sulphuric acid	7	
	Dyestuffs and pigments: paint and varnish	7	
	Synthetic resins and plastics materials	7	
	Other miscellaneous products	7	6 71
IX.	Metals, engineering and vehicles		
	Iron and steel	77-7	9 72
	Non-ferrous metals	8-08	1 74
	Engineering and allied products: sales of UK manufactured goods and work done	8	
	Mechanical, instrument and electrical engineering industries: volume index numbers of sales.	8	3 77
	Mechanical, instrument and electrical engineering industries: volume index numbers of orders on hand and net new orders	84-8	5 78
	Deliveries of television receivers		6 80
	Vehicles	87-8	
	Merchant shipbuilding	90-9	1 83

x.	Textiles and other manufactures	Table	Page

⁽¹⁾ Equals total final expenditure on goods and services at market prices less imports of goods and services less taxes on expenditure Source: Central Statistical Office

Exquers total final expenditure on goods and services at market prices less imports of goods and services less taxes on expenditure Source: Central Statistical Office plus subsidies. Estimates of the gross domestic product at constant factor cost based on statistics of output are given in Table 3.

(3) Including a fall in the book value of stocks of £280 million in the second quarter of 1973 reflecting tax rebated on the introduction of VAT; the rebate is also included as a deduction from taxes on expenditure and the estimate of gross domestic product at factor cost is thus not affected.

(4) Including approximately £100 million extra capital formation in imported oil platforms and related equipment delivered during the summer but not adjusted for seasonality.

⁽¹⁾ Estimates of the gross domestic product obtained from statistics of expenditure are given in Table 1.
(2) Gross domestic product is shown adjusted to allow for the use of delivery rather than production indicators to represent output in certain industries within manufacturing. The industrial production index and the index for manufacturing are not adjusted for this effect.

⁽³⁾Monthly figures and figures for individual manufacturing industries are also given in Table 50. These series may not be fully consistent with those shown in Table 50 which include the latest information.

Personal income, expenditure and saving

⁽¹⁾Before providing for depreciation and stock appreciation.

⁽²⁾ Employers' contributions to national insurance, etc. and pension funds.

⁽³⁾ National insurance benefits, family allowances, assistance grants, war pensions and service grants, etc.

⁽⁴⁾Income from rent and self-employment, before providing for depreciation and stock appreciation, dividend and net

interest receipts and transfers to charities from companies.
(8)Including from 2nd quarter 1973 tax credits on dividends.

⁽e)Including from 2nd quarter 1973 imputed tax payments set against tax credits on dividends less payments in cash of tax credits by the Inland Revenue.

⁽⁷⁾ Equals total personal income before tax less payment of taxes on income, national insurance, etc, contributions, and net transfers abroad.

⁽a) Before providing for depreciation, stock appreciation and additions to tax reserves.

^(®)Personal saving as a percentage of total personal disposable income is shown in italics.

(10)Personal disposable income revalued by the implied consumers' expenditure deflator (1970=100).

Manufacturers 34 36

Wholesalers 181 Other industries

This allocation is approximate, particularly in relation to the asset analysis of manufacturers' stocks.

Sources: Central Statistical Office Department of Industry

⁽¹⁾ Differences between totals and the sum of constituent parts of manufacturing are due to rounding.
(2) Including a fall in the book value of stocks of £280 million reflecting tax rebated on the introduction of VAT.

The rebate has been allocated as follows:

Gross domestic fixed capital formation

⁽a) In this series capital formation in imported ships is included at the time of delivery instead of when the expenditure takes place. See also footnote (1) to Table 9.

(a) Covers agriculture, forestry and fishing, construction, and other service industries.

(b) Including approximately £100 million extra capital formation in imported oil platforms and related equip-

ment delivered during the summer but not adjusted for seasonality.

Fixed capital expenditure in manufacturing industry

Note: From 1971 the employees in employment estimates are based on an annual census of employment. For the years before 1971, estimates are taken from the continuous series published for Great Britain in the March 1975 issue and for the United Kingdom in the October 1975 issue of the Department of Employment Gezette.

(1) Estimates for Great Britain after June 1974 are provisional. (2) Estimates for the registered unemployed are not available for December 1974.

(3) Employment estimates are provisional after June 1975.

See Note to Table 14.

Note: Because the figures have been rounded independently totals may differ from the sum of the components.

(1) Excluding private domestic service.

(2) The Industries included in the index of production are Orders II-XXI of the Standard Industrial Classification 1968.

(a) The estimates for agriculture are taken from the consuses of agriculture and exclude a small number of employees of agricultural machinery contractors. It should also be noted that the figures for full-time male and female workers include seasonal and temporary workers and that the definition of part-time is that used in the agricultural censuses.

(4) Excluding members of HM Forces.

Note: Figures have been rounded independently, thus there may be an apparent slight discrepancy between the sum of the constituent items and the total.

(1)The figures include established and unestablished non-industrial and industrial staff but exclude casual or seasonal staff (recruited for periods of normally less than six months) and employees of the Northern Ireland Government. Two part-time employees are counted as one whole-time employee. The figures prior to 1 July 1972 have been adjusted to show staff in current ministerial areas so that the figures in all

columns are on a comparable basis.

(3) Excluding headquarters staff, but including research and development establishments and Royal Ordnance factories. (4)From 1 April 1974 Royal Ordnance factories are shown separately.

(1) Figures are based on surveys undertaken on behalf of central and local government by the Local Authorities' Conditions of Service Advisory Board.

CiBased on following factors to convert part-time employees to approximate full-time equivalents: For teachers and lecturers in further education, 0.11; teachers in primary and secondary education and all other non-manual employees, 0.53; manual employees, 0.41.

(3)Provisional figures.

(4)Including central services departments (e.g. engineers and treasurers) and all services not shown separately.

(6)Includes civilian employees of police forces, traffic wardens and police cadets.

⁽¹⁾Operatives are all manual workers. Self-employed operatives are excluded.
(2)Annual figures are averages of the monthly series.
(3)Figures for October 1973, and all figures from July 1974 are based on a more comprehensive register of firms.
Annual averages for 1974 are estimated on the bases of both the previous and the expanded registers.

Overtime and short-time worked by operatives in manufacturing industries(1)(2)

⁽¹⁾Orders III-XIX of the Standard Industrial Classification 1968.

^[2] In June 1974 a new sampling system was introduced for the monthly employment returns. At the same time revisions were made in the method of calculating overtime and short-time. Figures for June 1974 have been calculated on both the old and new basis. Thus, up to and including June 1974(a) the figures related to operatives at establishments with over 10 employees in all manufacturing industries except shipbuilding and ship-repairing but excluded overtime worked by maintenance workers. The new series from June 1974(b) relates to all operatives in manufacturing industries including shipbuilding and ship-repairing, and overtime worked by maintenance workers is included.

⁽⁹⁾Operatives stood off for the whole week are assumed to have been on short-time to the extent of 40 hours each.

(4)In January, February and March 1974, the volume of overtime and short-time was affected by the energy crisis.

(8)Figures after June 1975 are provisional and are subject to revision to take account of the 1976 Census of Employment.

⁽¹⁾ Excludes adult students registered for vacation employment.

Sources: Department of Employment Department of Manpower Services (Northern Ireland)

⁽²⁾Percentage rates have been calculated by expressing the total numbers unemployed as percentages of the numbers of employees (employed and unemployed) at the appropriate mid-year. The latest base available is that for mid-1975 and percentage rates have been revised from January 1975.

⁽³⁾The figures for 1974 are averages of eleven months.

⁽⁴⁾ Because of industrial action at local offices of the Employment Services Agency, the figures for October and November 1974 include estimates for some offices. No count was made in December 1974, and in January 1975 an estimate was made based on simplified procedures.

⁽⁶⁾ From October 1975 the day of the count was changed from Monday to Thursday. Adjustments in respect of amendments notified on the four days following the count were discontinued.

⁽⁹⁾In January 1976 unemployment returns from eight employment offices in the West Midlands showed combined figures only for males and females. The male and female figures shown include estimates.

⁽¹⁾ From October 1975, the day of the count of the numbers temporarily stopped was changed from Monday to Thursday.

^(*) Excludes adult students registered for vacation employment.

(2) The figures for 1974 are averages of eleven months except for Northern Ireland. No average has been calculated for West Midlands region. In January 1975 estimates were based on simplified procedures.

(3) See footnote (6) to Table 21

⁽d) Percentage rates have been calculated by expressing the total numbers unemployed as percentages of the numbers of employees (employed and unemployed) at June 1974.

⁽¹⁾ Classified by industry in which last employed. Excludes adult students registered for vacation employment.
(2) The figures for this table are compiled quarterly from August 1976.
(3) From October 1975 the day of the count of unemployed was changed from Monday to Thursday.
(4) The denominator used in calculating the percentage rate of unemployment is the appropriate mid-year estimate of total employees (employed and unemployed) in this case that for mid-1975.
(3) The seasonally adjusted series have been calculated as described in the Department of Employment Gazette March 1976, page 267.

(*)No adjustment has been made to the figures for amendments notified in the four days following the count.

(2)Prior to October 1975, the total differs from that shown for Great Britain in Table 21 which excludes adult students and prior to October 1975 shows unamployment figures adjusted for amendments notified in the four days following the count.

(3)Monthly averages for 1974 are based on eleven months for the totals and on eight months for the duration ranges.

(4)From October 1975 the figures exclude adult students and the day of the count was changed from Monday to Thursday.

(6)See footnote (6) to Table 21.

⁽²⁾ Excludes adult students registered for vacation employment.

Estimates, based on this analysis are made for a date later in the month, currently the second Thursday, when the numbers unemployed are counted.

(3) This group includes those, at the operative date, whose claims were still being examined, married women, school-leavers, persons previously self employed, retired persons seeking paid employment, persons not yet qualified to receive benefit, those disqualified and those who have exhausted their entitlement.

(4) Detailed information was not collected for February 1974 because of the energy crisis.

⁽¹⁾ Excludes stoppages involving fewer than 10 workers or lasting less than one day except any in which the total number of working days lost exceeded 100. The figures for 1976 are provisional.
(2) The analysis by industries is besed on the Standard Industrial Classification 1968.

⁽³⁾Where stoppages extend over more than one month, the workers involved are counted in the month in which they first

participated.

(4) The figures of working days lost relate to the total working days lost within each of the periods shown as a result of stoppages in progress in that period, whether the stoppages began in that period or earlier.

¹⁾ Figures for individual months are averages of the four or five weeks ending on the last Tuesday of each month.

Source: Department of Health and Social Security

⁽²⁾Invalidity benefit was introduced on 23 September 1971.

⁽³⁾Including non-contributory invalidity pension introduced from 20 November 1975.

⁽⁴⁾Including prescribed industrial disease.

⁽⁸⁾ Excluding claims made under the emergency benefit procedure. Figures for individual months are averages of the four or five weeks starting on the first Monday of each month.

⁽⁸⁾These figures include substantial numbers of persons who have been sick for a long time and who may no longer be in em-

⁽⁷⁾Up to May 1974, these estimates are based on a standing sample of claimants. Subsequent figures are provisional estimates derived from the numbers of new claims and will be replaced later by final estimates from the sample. Yearly figures are averages of twelve monthly figures.

⁽⁹⁾Yearly figures are everages of quarterly figures. Quarterly figures relete to the first Monday in February, May, August and November.

⁽a)Including pensioners in receipt of Old person's retirement pension awarded under National Insurance Acts 1970 and 1971.

⁽¹⁹⁾Including a diminishing number of widows with pensions of 30s a week derived from the old Contributory Pensions Acts.

(19)Including the elder or eldest child for whom no allowance is payable. (12)Provisional. *Average of five weeks.

(1) From June 1973 the census covers all known holdings in the United Kingdom with 40 standard man-days or more. (A standard man day represents 8 hours productive work by an adult male worker under average conditions). All holdings with less than 40 smd in Scotland are excluded but in England and Wales and Northern Ireland holdings with less than 40 smd are excluded only

Sources: Agricultural Departments

if they have less than 10 acres of crops and grass and no regular whole time worker. The same criteria applied in Great Britain in the years 1970 to 1972 except that the threshold for standard labour requirements in those years was 26 smd. The figures for Northern Ireland, before 1973, related to holdings of one acre or more, except for the numbers of livestock which were collected from all owners irrespective of the size of the holding as well as from landless stock holders.

(2) UK gross production in crop years, i.e. 1971 equals 1971/72. (3) Provisional. (4) Weight in pods. (6) Shelled weight. (6) Before June 1975 collected in England

(2) UK gross production in crop years, i.e. 1971 equals 1971/72. (3) Provisional. (4) Weight in pods. (5) Shelled weight. (6) Before June 1975 collected in England and Wales as Clover, sainfoin and temporary grasses, in Scotland as Grass under seven years old; in Northern Ireland as Grass under four years old. (7) Includes hay from lucerne in England and Wales, and from permanent grass in Scotland. (8) Before June 1975 collected in England and Wales as Permanent grass; in Scotland as Grass seven years old and over; in Northern Ireland as Grass four years old and over. (8) Includes the total area of deer forest land in Scotland. (10) Before June 1974, in England and Wales, collected as Woodland ancillary to farming. (11) In Scotland collected as Woodland ancillary to farming. (12) Before June 1974 in England and Wales collected as Other land used for agriculture, and in Scotland as Area of yerds, roads and buildings.

⁽¹⁾Based on returns from Potato Marketing Board and Ministry of Agriculture, Northern Ireland. (2)Disposals (excluding seed and chats) of home grown and imported potatoes for human consumption processing, export and sales for stockfeed through schemes for implementing the Agriculture Act, 1947. (3)Including sugar used in the manufacture of other foods. (4)Imported and home produced supplies of refined and raw sugar. (6)From January 1975 figures relate to sales. (6)53 week period (except potatoes).

⁽¹⁾ A small quantity of molasses spirit is used in beverage spirit production. See explanatory notes in the Supplement to Table 76. Source: HM Customs and Excise (2) The sub-headings indicate the description of the spirits at the time of duty payment. (3) In accordance with obligations under the Treaty of Accession to the EEC on 1 January 1976 changes were made to the wine duties. From this date, Wine means all wine of fresh grapes irrespective of origin. Made-wine includes most fermented beverages not subject to other excise duties and largely covers the same field as British Wine to the end of 1975. (See Supplementary notes). (4) On 1 July 1973 separate rates of duty were introduced for wine imported from the EEC. Quantities of wine from non-EEC countries on which duty has been paid at EEC rates under quota arrangements will appear under EEC rate. Comparability with figures formerly shown under Other rates can be achieved by summing the quantities now shown as EEC rates and Other rates. (6) From 1 January 1976 Commonwealth rate includes a small amount of wine made in the United Kingdom from fresh grapes. (6) Provisionel.

Department of Employment

⁽³⁾ Lutrary estimates are derived as averages of the monthly figures.

(3) In the absence of earnings data for February 1972 due to the effects of the coalmining dispute no index of wages and salaries per unit of output has been calculated for that month. The indices calculated for January and March 1972 are less reliable than usual.

VII. ENERGY

Inland energy consumption: primary fuel input basis(1)

⁽¹⁾ Including an estimate for slurry, etc., recovered and disposed of otherwise than by the National Coal Board.
(2) As recorded in the Oversess Trade Statistics of the United Kingdom.
(3) NCB mines only.

*Five wo *Five week period.

Source: Department of Energy

Source: Department of Energy

⁽¹⁾ Disposals by collieries and opencast sites. (2) Public supply and railway and transport power stations. (3) Low temperature carbonisation and pattent fuel plants. (4) Prior to October 1973 the figures relate to actual consumption. (9) Prior to April 1973 the figures relate to merchants' disposals to the domestic market. (9) Including miners' coal. (7) Anthracite, dry steam coal and imported naturally smokeless fuels. (9) Mainly public administration and commerce. Five week period.

^(*)Including coka. (2)Including quantities used in the production of steam for sale. (3)Including oil used in gas turbine end diesel plant and for lighting up coal-fired boilers. (4)Including generation by gas turbine, diesel and hydro-electric plant. (5)Used on works and for pumping at pumped storage stations. (6)Including net imports and purchases from outside sources mainly UKAEA and British Nuclear Fuels Ltd. The England and Wales figures include net exchanges with Scotland. (6)Average of five weeks.

Sales of electricity by the public supply system

(1) A new inquiry with a wider coverage was introduced in the 4th quarter of 1972 and overlapped the previous inquiry for that quarter. The two sets of figures published for that quarter can therefore be used to provide a link between the two tables.

(3) Products of condensation, polycondensation and polyaddition are broadly comparable with thermosetting resins. They include alkyds, unsaturated polyesters, aminoplastics, phenolics, epoxide resins and polyurethenes (non-forms). Polyamides (including material for fibre spinning and monomer cast forms) are now included, but casein products excluded. The previous coverage of polyurethanes included flaxible foams.

(3) Products of polymerisation and copolymerisation are broadly comparable with thermoplastic resins. They include acrylica, polyolefins, polyvinyl chloride, polyvinyl acetate, polystyrene and ABS. Previously some polysmides, cellulosics (apart from regenerated cellulose film) and resin ester gums were included.

(4) Including regenerated cellulose film, casein, and resin ester gums.

(6) These include moulding and extrusion compounds of elkyds, unsaturated polyesters and phenolics, and plasticised and unplasticised compounds of polyvinyl chloride. In the first table they are included with plastics materials, as are compounds of aminoplastics.

(*) Mainly comprising laminated thermosetting sheet, and unconverted film and sheet.

(7) Figures for 4th quarter 1972 and 1st quarter 1973 exclude extruded flexible plasticised PVC sheet.

 ⁽¹⁾ Industrial ethyl alcohol is distilled from molasses or derived from other processes: the current usings of molasses spirit in beverage spirit production are believed to be comparable with the usings in the preceding financial year—see explanatory notes.
 (2) From July 1971 figures relate to seles by manufacturers in the United Kingdom employing 25 or more persons and who are classified as MLH 275 (soap and detargents). The figures also include sales of synthetic detergents by establishments classified to MLH 271 (general chemicals), MLH 272 (pharmaceutical chemicals and preparations) and MLH 279/1 (polishes).
 (3) A short standard is 7,200 matches.

(1)Including manganese ore. (2)From January 1974 the totals are for usable steel in accordance with the system used by EEC and the International Iron and Steel Institute. (3)Stocks at producers' works of ingots, semi-finished and finished steel in terms of ingot equivalent. From March 1970 and March 1973 the figures are revised due to re-measurement. From January 1971, figures include stock of semi-finished steel for the manufacture of heavy products previously not reported. (4)The figures for 1970 onwards include deliveries of welded tubes over 16 inch outer diameter. (6)53 week period. *Averages of five weeks.

⁽¹⁾ Excluding material for conversion into products also listed in this table.
(2) Plates 3 mm and over; Sheets less than 3 mm.
(3) Excludes alloy.
(4) Includes bright steel bars; including alloy all sizes.
(6) Sa week period.

*Average of five weeks.

(3) Including chassis delivered as such by manufacturers. The value of deliveries of commercial vehicles is shown in Table 88.

(3) Beginning in 1973 the headings under which data are collected were changed. The new heading of Car derivatives (i.e. vans derived from car chassis) has virtually the same coverage as the heading it replaced, Commercial vehicles not over 1½ tons. Although not all commercial vehicles under 1½ tons gross vehicle weight are classed as car derivatives and it is also possible for car derivatives to exceed 1½ tons gross vehicle weight, the difference between the two categories is small as far as UK production is concerned. The series as given may therefore be regarded as sufficiently continuous for the analysis of trends. The combination of the two series, car derivatives and commercial vehicles under 10 tons gross vehicle weight is identical in coverage with the sum of the two series that have been superseded.

Five week period

(3)Complete and chassis.

*Five week period

Merchant shipbuilding(1): tankers of 300 gross tons and over(2)

(*) Modifications and cancellations exceed new orders for the period.

⁽³⁾Includes naval vessels registered as merchant ships.
(2)Gross tonnage (100 cubic feet per g. t.) is the total volume of all the enclosed spaces of a vessel.
(3)The total tonnage specified on ordering vessels differs slightly from the total actual measured tonnage on completion.
(4)Vessels are shown for export if they are for other than UK registration.
(5)Modifications include alterations of 500 gross tons or more to the tonnage and the country of registration of vessels already on order.

(1)Spinning, doubling processing and weaving parts of the cotton industry, plus wool, carpets and hosiery industries. (2)These indices have been adjusted to allow for the differences in the lengths of calendar months but not for holidays or for other seasonal variations.

(3)The monthly provisional index numbers for individual sectors relate to the total output of manufacturers whose main business is in that sector of the industry. These are subsequently revised in the light of sales figures of the principal products of each clothing sector as reported in the quarterly sales inquiries.

(1) Figures relate to data actually collected. It is known that figures of consumption are incomplete and the following estimated Deficit allowances should be added each month from January 1975 to give an indication of total consumption (thousand tonnes): natural 1 ·1, synthetic 3 ·8, reclaimed 0 ·1.

(2)Stocks held by United Kingdom producers and larger consumers.

Source: Department of Industry

(3)New quarterly inquiry with extended coverage from April 1975.

(1)From the 3rd quarter 1971 information was collected on a slightly different basis; the figures, therefore, are not fully comperable with those for earlier periods. A link between the two sets of figures is shown in the March 1972 edition of Business Monitor, P. 9, Carpets. (2)Prior to the 3rd quarter 1971 these figures relate to woven carpets faced with more than 50 per cent of man-made fibres. (3)Prior to the 3rd quarter 1971 export figures are those reported directly by manufacturers. From that date they are those recorded in the Oversess Trade Statistics.

(*) Figures from the third quarter 1974 include a limited number of orders received by small firms added to the statistical register in that period.

(*) These figures relate to work included in the preceding columns which is to be done without a firm order.

(*) From the second quarter 1976 figures are not precisely comparable with those for earlier periods because of revisions to estimations methods and minor changes in type of work classification.

(*) Provisional.

(1)From 1975 figures include additional sites. The change has had the following effects: Building bricks production and stocks increased by 1%; sand and gravel production increased by an average of 3%; metal windows production increased by 14%, stocks by 10%; concrete building blocks production increased by an average of 11% and concrete roofing tiles production and stocks increased by less than 1%.

(2)United Kingdom.

(3)Including building and concreting sand, hoggin.

(4)The acope of the slate enquiry has been widened to include uses as powder, granules and fill. The figures therefore, from January 1976 are not comparable with the earlier series.

*Five week period.

(1)Excluding building which is wholly financed from private sources. (2)From January 1960 for Scotland and from April 1960 for England and Wales the cost of school meals projects has not been separately recorded. The value of such projects, shown separately for the years 1946 to 1959 in previous tables of educational building, has been included as appropriate under the headings Primary and secondary and Special schools. (3)Totals for England and Wales include the value of certain projects for which no enalysis between type of project is available. As from October 1961, the individual value of such projects is less than £2,000. (4)Figures for England and Wales include the value of projects for which specific approval is not required. (9)Figures for England and Wales relate to project values and those for Scotland to contract values. Figures for Scotland include the cost of certain main projects for which specific approval is not required. (6)The Scotlish figures of Under construction and Completions are based on the tender costs. The Under construction and Completions figures exclude the value of approved school projects which in 1969 amounted to £1,246,000 and £406,000 respectively.

⁽¹⁾Local authority schools in Scotland.

Sources: Department of Education Scottish Education Department

⁽a) Local authority schools in Scotland.

(a) The method of calculation of the number of new places provided differs in England and Wales and Scotland. In England and Wales the figures refer to the number of pupils for which new school accommodation is designed. In Scotland the figures refer to the sum of the approved capacities of all the teaching rooms whether classrooms or practical rooms, and will normally exceed the number of pupils for which accommodation is designed.

(4) Extensions, alterations, remodelling and war damage repairs.

(*) From 1973, two joint operating companies have been reclassified as local authorities (Halifax B services and Rossendale Transport).

(2) Including operation of transcars by 2 local authorities. These accounted for 9 million passenger journeys and £1-1 million receipts in 1975.

(3) Provisional.

(4) Quarterly figures are estimates. Annual figures are actual totals except for other operators which includes an estimate for private operators.

O'The four-weekly averages for each year are computed from calendar year totals.

(3) Freight train traffic only.

(4) From January 1969 until December 1973 figures have not included estimates for freight carried on behalf of National Carriers Ltd. and Freightliners Ltd.

(4) As from January 1974 estimated results for National Freight Corporation traffic tonnages have been incorporated by British Railways, and hence in the above table also. Comparable annual average figures for 1974 with those previous would be, respectively 13-01 and 3-85.

(6) Estimates for National Carriers Ltd. and Freightliners Ltd. are excluded from net tonne kilometre figures.

(6) From January 1972, four-weekly figures of net tonne kilometres are estimated but corrected in accordance with quarterly and annual returns from British Railways.

(7) Traffic results for two months. Results cannot be split due to industrial action.

 ⁽¹⁾ Scheduled services only. All kilometre statistics are based on standard (Great Circle) distance.
 (2) Slight discrepancies between certain totals and the sum of their constituent items are attributable to the rounding of figures.
 (3) Including weight of vehicles uplifted on vehicle ferry services, mail, excess baggage and diplomatic bags.

⁽¹⁾ Excluding movement by land across the frontier between the Iriah Republic and Northern Ireland, passengers travelling between the Channel Islands and Great Britain, passengers carried in aircraft chartered by British government departments and, as far as possible, passengers travelling by see on day trips and HM and other Armed Forces travelling in the course of their duties.

Sources: Department of Industry Civil Aviation Authority

Armed Policies travelling in the course of their duties.

(3) Including passengers on pleasure cruises beginning and/or ending at UK seaports.

(3) To avoid disclosure the figure for the first quarter of each year is included with that for the second quarter.

(4) From 1974 the figures do not include oil rigs.

PASSENGER MOVEMENT

UK passenger movement by sea and air(1)

Analysis by countries of landing and of embarkation

⁽¹⁾ Statistics of visible trade on a balance of payments basis are obtained by making certain adjustments in respect of valuation and coverage to the statistics recorded in the Overseas Trade Statistics. These adjustments are summarised in Table 125 above; they are described in detail in United Kingdom Balance of Payments 1965–75.

(2) Export unit value as a percentage of the import unit value index.

Value of exports (f.o.b.): analysis by commodity classes

(1) In addition to its lending, the National Loans Fund meets the interest and management charges of the National Debt. To the extent that these charges are not matched by interest received on its own lending and by profits of the Issue Department of the Bank of England, the Consolidated Fund meets the difference. The surplus on the Consolidated Fund is paid to the Fund leaving the difference between that and its net lending as the Fund's financing requirement. "Dincluding loans used for redemption of government guaranteed stock. (3) Loans under the Ship Credit Scheme and to the Shipbuilding Industry Board, housing associations and building societies. (4) Loans to Votes for US military aircraft, Town and Country Planning compensation. Redundancy Fund and lending to Northern Ireland Exchequer. (9) From January 1975 loans to Royal Ordnance Factories and to Royal Mint, previously in Loans to other public corporations: other are classified to Lending within central government.

Relationship between columns: 3+4-1-2=5 5-6-7+8=9

Sources: HM Treasury Central Statistical Office

⁽¹⁾ This is equal to National Loans Fund borrowing and special transactions (net) less receipts from other Central Government funds, etc. It is also equal to the amount the central government borrows less any increase (or plus any decrease) in its official reserves.

Cilincludes payments out of the Consolidated Fund for service of the National Debt under Section 15(1) of the National Loans Act 1968, and transfers of surpluses of the death duties surrendered securities account in March each year.

⁽³⁾ For recent periods the monthly figures may not aggregate precisely to the querterly figures because the former include minor revisions which, for consistency reasons, cannot yet be reflected in the quarterly figures.

(4) Excluding borrowing from the National Loans Fund.

(1) The sum of the twelve monthly receipts differs from the total shown for the financial year. The yearly totals include revisions e.g. on account of amounts payable to the Isle of Man, which cannot be allocated to particular periods. (2) From January 1974 the figures given include receipts from Northern Ireland. Previously the duties imposed by the Government of Northern Ireland had been retained by them. (3) Provisional. Source: HM Customs and Excise

⁽²⁾ From January 1974 the figures given include receipts from Northern Ireland. Previously the revenue arising from these duties was retained by the Government of Northern Ireland.

(3) Payments due in cartain cases where the overseas rate exceeds the corporation tax rate (Section 84, Finance Act 1965).

(4) The yearly totals include revisions which cannot be allocated to particular monthly periods.

⁽²⁾The second lines of figures for

Source: Bank of England

⁽⁴⁾ The second lines of figures for Source: Bank of England each period exclude as far as possible the effect of change in exchange rates on the sterling value of advances in foreign currency.

(2) The analysis provided by Northern Ireland banks differs slightly from other banks. Chemicals and allied industries are included indistinguishably in Other manufacturing, metal manufacturing, electrical engineering, shipbuilding, and vehicles in Other engineering and metal goods, and transport and communications in Public utilities and national government.

(4) Including fending under special schemes for domestic shipbuilding.

12-5 per cent. (i) Virtually all interest bearing. (i) Minimum 10 per cent. (ii) Not applicable to banks in Northern Ireland. Supplementary deposits were paid, according to growth in excess of the guideline, at rates (from November 1974) of 5 per cent (up to 3 per cent excess), 25 per cent (over 3 and up to 5 per cent) and 50 per cent (above 5 per cent) of interest-bearing eligible liabilities. On 28 February 1975 the supplementary deposits scheme was suspended for the time being. adjustments to special and supplementary deposits arising from the mid-November figures are made after the mid-December reporting date.

(7)The exclusion of one contributor at the end of 1975 reduced eligible liabilities (all interest-bearing) by £314 million, reserve assets by £11 million and raised the reserve ratio by 0·1.

(8)Figures for Northern Ireland banks were not available because of industrial action by bank employees. Total figures for all banks include those for Northern Ireland banks for mid-May 1976.

(1)Derived from yield maturity curves fitted mathematically. The breaks show a change in the method: an explanation of the changes appeared in the Bank of England Quarterly Bulletin December 1972, September 1973 and June 1976. The yearly figures are averages of monthly yields. The monthly figures relate to averages of Wednesdays.

(2)Average of working days, besed on the mean of the middle opening and middle closing prices each day, excluding gross accrued interest; tax is ignored.

(4)Gross redemption yields of 15 stocks so combined as to give a yield average for a constant 20-year term.

⁽¹⁾ The figures represent the average earnings, including bonus, overtime, etc., and before deduction of income tax or insurance contributions, in one week in the months indicated. Administrative and clerical workers and other salaried persons have been excluded. Certain qualifications are given in a full account of the enquiry relating to October 1975, published in the *Department of Employment Gazette* for February 1976.

3) From and including October 1967 includes (a) dock workers previously on daily or half daily engagements and (b)

postmen.

(3) This index relates only to the industries covered by the earnings enquiry. It should not be confused with the figures in Table 171 which cover All industries.

⁽¹⁾England and Wales only, (2)Except sea transport and postal services. (3)Consisting of laundries and dry cleaning, motor repairers and garages and the repair of boots and shoes. (4)For notes on the index classified according to Standard Industrial Classification 1968, see pages 470–471 of the Employment and Productivity Gazette for May 1970. (8)Because of the dispute in coal mining a reliable index for Mining and quarrying for February 1974 cannot be calculated. The figure for coal mining for a month earlier has been used in the compilation of annual average for 1972. (8), (7) and (8) See page 152.

⁽¹⁾ The figures are based upon changes in basic rates of wages or minimum entitlements and reductions in normal weekly hours, which are normally determined by national collective agreements or statutory wages regulation orders. The information relates to the end of the month and, where necessary, the figures may be revised to take account of any changes having retrospective effect or reported belatedly. A brief note on the method of compilation of the figures is given in the current issue of the *Department of Employment Gazette*.

(2) In general, males under 21 and females under 18 years of age.

(3) The term Manufacturing industries covers all industries included in Orders III—XIX of the Standard Industrial Classification states.

(1) The figures relate to changes in basic full-time weekly rates of wages or minimum entitlements and do not reflect reductions in normal weekly hours without loss of pay or variations in actual earnings arising from such factors as overtime or lost time. The changes

included are those determined by national collective agreements or by statutory wages councils or boards.

(3) The monthly totals in the columns headed Increase and Decrease relate to the number of workpeople affected by changes and the corresponding gross amounts. Workpeople affected by two or more changes are counted only once in the annual totals which relate to the number having increases only or for whom increases exceeded decreases, the number having decreases only or for whom decreases exceeded increases, and the corresponding net amounts; the column headed Net increases, is therefore the overall net increase for the year.

⁽a) The annual totals of net increases in basic weekly rates of wages mean that the total wage bill of the country, in the industries and for the workpeople covered by the statistics, for a full ordinary week's work at basic rates of wages at the end of any one year exceeds that for the corresponding week of the preceding year by the amount stated. The average weekly wages paid during any one year will not, however, exceed those paid during the preceding year by this sum, as the actual changes will have taken place at various dates during the year.

General index of retail prices

TABLE 173

		All	All items succept items of food whose prices show significant seasonal variations	Food	Alcoholic drink	Tobacco	Housing	Fuel and light	Durable house- hold goods	Clothing and foot- wear	Trans- port and vehicles	Miscel- laneous goods	Services	Meals bough and cor sumed outsid the home

⁽¹⁾The Cost of Living Advisory Committee (now renamed the Retail Prices Index Advisory Committee) recommended in 1962 that until a satisfactory index series based on actual prices became available half the expenditure on meals out should continue to be allocated to the food group and the other half spread proportionately over all groups, including the food group. The index for meals out for 16 January 1968 implicit in this recommendation was 121 · 4. Since January 1968 an index series based on actual prices has been available and indices in this series have been linked with the implicit index for meals out for 16 January 1968, to obtain indices for meals out with 16 January 1962 taken as 100.

^(*)Index numbers constructed on a net sector basis, i.e. transactions within sector are excluded.

(3)Index numbers are compiled exclusive of VAT revenue duties on cigarettes, tobacco, alcoholic liquor, matches and mechanical lighters. Duty on hydrocarbon oils is included in series for materials and fuel purchased by broad sectors of industry but excluded from output price series.

Department of the Environment

⁽¹⁾ and (2) see page 158.

(3)Index of building and civil engineering costs relating to the average for the quarter (Department of the Environment).

(4)The index covers only dwellings on which building societies have approved mortgages during the period. The cost of land is included.

(5)Provisional.

(6)From 1975 figures are based on a new monthly return covering 90 per cent of building society mortgages.

[&]quot;Based on manufacturers' list prices.

Source: Ministry of Agriculture, Fisheries and Food

⁽²⁾ The market-price series are based on prices before the addition of subsidies when paid to producers under the Cereals Deficiency Payments Scheme, Fatstock Guarantee Scheme and Beef Premium Scheme.

⁽³⁾ From January to June 1975, market price series for Bacon factory pigs and Other pigs combined in the ratio 59:53.

From July 1975 UK All clean pigs price calculated by Meat and Livestock Commission.

(4) The gross-price series for wheat, cattle and pigs are based on prices after the addition of subsidies when paid to pro-

ducers; that for milk on prices paid to producers by the marketing board and that for potatoes on producer prices, sometimes supported by the Potato Marketing Board.

⁽⁵⁾ Maincrop potatoes only.

⁽⁶⁾ Based on BEMB prices to producers under the Egg Contract Schemes until March 1970. From April 1970 until March 1971 based on guaranteed minimum prices to producers at packing stations and thereafter on average price paid to producers at packing stations.

[&]quot;Blassd on net prices to farmers after deduction of subsidy to May 1974. From June 1974 based on manufacturers' prices in the Wholesale Prices Index calculated by the Department of Industry with adjustment being made for subsidy in the base period.

⁽B) Provisional.

Index numbers of agricultural prices

Monthly series for All-products(1) and other product groups (based on prices after addition of subsidy where payable)

TABLE 177

Units of measurement

I. Common units of measurement and their equivalents

			Equivalent values
ength			
1 millimetre (mm)		0.039 370 1	inches
1 centimetre (cm)	= 10 millimetres	0.393 701	inches
1 metre (m)	= 1,000 millimetres	1.093 61	yards
1 kilometre (km)	= 1,000 metres	0-621 371	miles
1 inch (in)		25·4 millimetr	res or 2.54 centimetres
1 foot (ft.)	= 12 inches	0.304 8	metres
1 yard (yd.)	= 3 feet	0-9144	metres
1 mile	= 1,760 yards	1.609 34	kilometres
Area			
1 square millimetre (mm*)			square inches
1 square metre (m³)	= million square millimetres	1.195 99	square yards
1 hectare (ha)	= 10,000 square metres	2.471 05	acres
1 square kilometre (km²)	= million square metres	247-105	acres
1 square inch (sq. in.)		645-16 square	millimetres or 6.451 6 square centimetres
1 square foot (sq. ft.)	= 144 square inches		square metres or 929.030 square centimetres
1 square yard (sq. yd.)	= 9 square feet	0-836 127 sq	juare metres
1 acre	= 4,840 square yards	4,046.86 square	metres or 0.404 686 hectares
1 square mile (sq. mile)	= 640 acres		uare kilometres or 258.99 hectares
Volume			
1 cubic centimetre (cm³)		0.061 023 7	cubic inches
1 cubic decimetre (dm³)	= 1,000 cubic centimetres	0.035 314 7	cubic feet
1 cubic metre (m³)	= million cubic centimetres	1.307 95	cubic yards
1 cubic foot (cu. ft.)		0.028 316 8	cubic metres or 28-316 8 cubic decimetres
1 cubic yard (cu. yd.)	= 27 cubic feet	0·764 555 cubic metres	
Capacity			
1 litre (l)	= 1 cubic decimetre	0.2200	gallons
1 hectolitre (hl)	= 100 litres	22.00	gallons
1 pint		0.568	litres
2 pints	= 1 quart	1.137	litres
8 pints	= 1 gallon	4·546 09 cu	bic decimetres or 4.546 litres
36 gallons (gal.)	= 1 bulk barrel	1.636 56	hectolitres
Weight			
1 gramme (g)		0.035 274 0	
1 hectogramme (hg)	= 100 grammes	3·527 40 ou	ances or 0.220 462 pounds
1 kilogramme (kg)	= 10 hectogrammes	2.204 62	pounds
1 tonne (t)	= 1,000 kilogrammes	1·102 31 sh	nort tons or 0.984 2 long tons
1 ounce avoirdupois (oz.)		28-349 5	grammes
1 pound avoirdupois (lb.)	= 16 ounces		37 kilogrammes
1 hundredweight (cwt.)	= 112 pounds	50-802 3	kilogrammes
1 short ton	= 2,000 pounds		ilogrammes or 0-907 184 74 tonnes
1 long ton (1)	= 2,240 pounds		rammes or 1.016 05 tonnes
1 ounce troy	= 480 grains	31-103 5	grammes

¹⁾ Simply referred to as 'ton' throughout the Monthly Digest of Statistics

II. Other units and equivalents used in the Monthly Digest of Statistics

Energy:	British thermal unit (Btu)	The amount of heat required to raise 1 lb. of water through 1 degree fahrenheit at or near 39.1 degrees fahrenheit						
	Therm	100,000 British thermal units						
Gigawatt hour (GWh)		106 kilowatt hours						
		10° kilowatt hours						
	Terawatt hour (TWH)	10° knowatt nours						
	Megawatt (MW)	10° watt						
Food and drink:	Butter	5,210 gallons milk	= 1 ton butter (average)					
	Cheese	2,340 gallons milk	= 1 ton cheese					
	Condensed milk	570 gallons milk	= 1 ton full cream condensed milk					
		660 gallons skimmed milk	= 1 ton skimmed condensed milk					
	Milk	1 million gallons	= 4,600 tons					
	Milk powder	1,800 gallons milk	= 1 ton full cream milk powder					
	•	2,400 gallons skimmed milk	The state of the s					
	Eggs	17,400 eggs	= 1 ton (approximate)					
	Sugar	100 tons raw sugar	= 95 tons refined sugar					
	Beer	1 bulk barrel	= 36 gallons irrespective of gravity					
Agriculture:	Pigs	Score deadweight	= 20 lbs, of dressed carcase weight					
	Hops	Cental	= 100 lbs. of hops					
Shipping:	Gross tonnage	The total volume of all the enclosed spaces of a vessel, the unit of measure ment being a ton of 100 cubic feet						
	Net tonnage	The gross tonnage less certain deductions on account of crew space, enging room, water ballast and other spaces not used for passengers or cargo

Social Trends

Social statistics are a vast topic: finding all the data available from the numerous sources can be a formidable task.

Social Trends is designed to be used by journalists, teachers, lecturers and students, by administrators in business, industry, trade unions and the public services, by marketing managers and market researchers, and by anyone else who needs accessible facts about social change in the United Kingdom.

Social Trends No 7, 1976 has an enlarged section on households, with subsections on children, the elderly and the coloured population. It contains a more comprehensive section on personal income and wealth and their distribution. The established sections on personal expenditure, education, housing, etc. (14 sections in all) include many new tables and charts.

Social Trends No 7, 1976 includes a commentary on social change in Britain in the first half of the 1970s. It has articles on changing patterns of crime, and an article on how people in Britain rate various aspects of their lives and how these ratings are changing. The calendar of events, now a regular feature, covers the years 1970 to 1975 and summarises changes in the law and other significant events.

Social Trends No 7, 1976

If you worked out the time you spend on fact finding, you'd cut out this coupon now.

£7.50 buys you a personal introduction to 2,500 statistical sources.

How many hours do you and your staff spend every year trying to track down the official sources of the statistics you need?

The Government's new Guide to Official Statistics could do most of this work for you.

This 350-page source book is the most comprehensive one of its kind ever produced in Britain.

It divides into nearly 800 topics, covering most subjects of national interest. And for each it describes what official and important unofficial statistics are available, and where. This takes in not only sources published regularly, but also occasional

reports and articles.

Around 2,500 sources are identified, and relevant publication details are listed in a separate bibliography. There is also an ABC index containing some 3,000 "key words" to make fact finding even simpler. More than 100 contact points in Government are identified for follow-up information.

The new Guide to Official Statistics took three years to compile. Yet it takes only minutes to benefit from all this research.

So cut out the coupon today and get your copy.

CENTRAL STATISTICAL OFFICE

DO YOU NEED TO KNOW MORE ABOUT REGIONAL DIFFERENCES IN THE UNITED KINGDOM?

Regional Statistics No 12 1976

Do you know where most of the colour televisions are? Or where the diet is heaviest in carbohydrates or where the highest proportion of owner occupiers live?

For those who need to know what's going on where, and for those who just want to keep well informed, the answers to hundreds of statistical questions can be found in the single publication *Regional Statistics*.

Compiled by the Central Statistical Office this book brings together an enormous range of data on the social, demographic and economic aspects of life in the regions of the United Kingdom, and provides a companion volume to the *Annual Abstract of Statistics*.

Issue No 12 provides a wide coverage of economic, social and demographic statistics for the standard regions of England, with Wales, Scotland and Northern Ireland. A few of the tables give details for metropolitan counties and some basic county statistics are included for each of the regions. The publication contains an outline map of the United Kingdom showing its regional composition as well as individual maps for each region showing their county boundaries. An index of sources directs users to later figures as they appear. Every chapter is preceded by introductory notes which give further explanations on sources and definitions for the tables.

Chapter headings are as follows:

Agriculture Household expenditure

Education Housing

Employment Personal incomes

Energy Population and vital statistics

Health Production, distribution and

investment

Regional accounts Regional profiles Social characteristics Social services

Transport

Studies in Official Statistics No. 30

The distribution of household income in the United Kingdom 1957-72

This publication fills a recognised gap in the analysis of available statistics on income distribution. The study analyses the wide range of economic and social data collected in the Family Expenditure Survey over the period 1957–72, and it also discusses the chief limitations of that data.

The aim is to increase knowledge of the nature of the changes in the distribution of household income in this period and also to improve understanding of the technical problems of analysis and interpretation.

Price index numbers for Current Cost Accounting No. 3

PINCCA is a booklet of price index numbers for companies and others who wish to experiment with the new system of accounting – current cost accounting (CCA) – proposed in the Exposure Draft published recently by the Accounting Standards Committee.

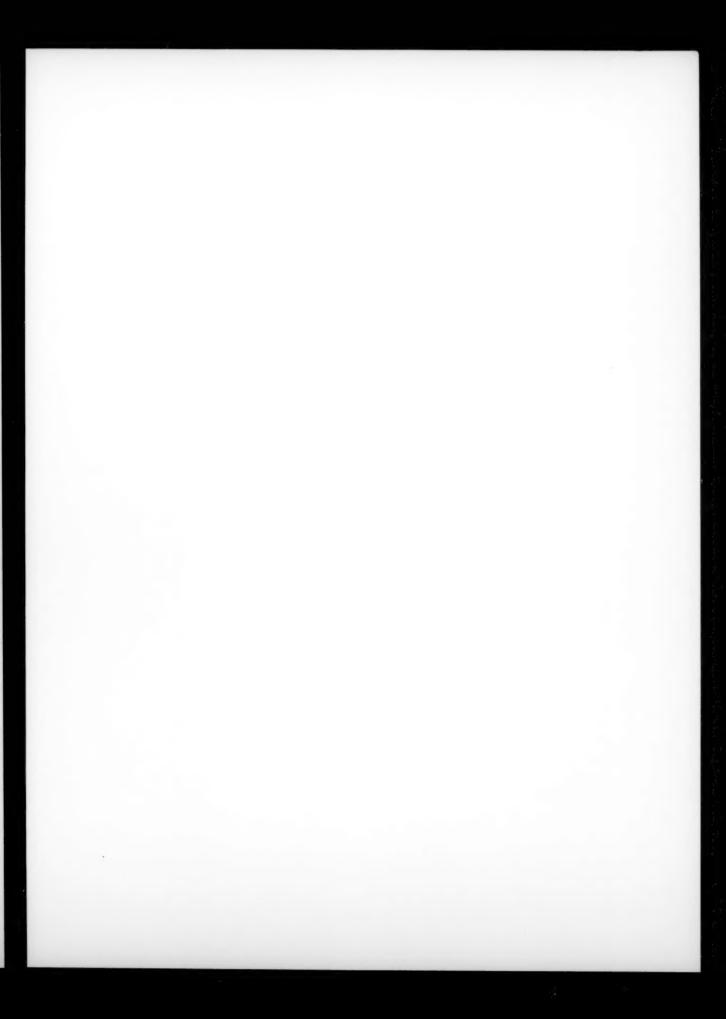

It has been produced in response to the Sandilands Committee recommendation that the Government Statistical Service should publish suitable price indices for use in CCA.

The third edition presents all the industry-specific price indices for fixed assets and stocks, and all the asset-specific price indices likely to be useful for revaluing fixed assets, which are available at present. It also includes the index of the cost of new construction and the general index of retail prices. Two appendices list a range of asset-specific price indices which companies may wish to use for revaluing their stocks and which can be supplied on request.

In general, indices are now given up to October 1976.

This booklet will be available from any Government bookshop (see addresses on back cover) or through booksellers in December.
